

A high-speed train, primarily white with blue and red accents, is shown in motion on tracks, blurred to convey speed. The train is the central focus of the background image.

Fastener kits

At Pugh and Sanders, we offer a bespoke kitting facility, manned in-house by fully-trained staff that is built around your business's needs.

We manufacture kits of products that are suitable to complete a specific task or tasks. These complex kits can incorporate free issue items provided from yourselves, or new items, expertly sourced by us.

- Increased productivity
- Easier cost control
- Minimal wastage

Bespoke kitting to increase productivity, control costs and minimise wastage

FEATURES

Dedicated to your business with flexible layout options

In house trained staff

Safety critical

Stock holding

Call off / Schedule - Cash flow enhancement

Using bill of materials

We can incorporate free issue items, consumables and all customer part numbers

Bogie / Rail specialists

Safety critical supplier, quality assurance across our business

"With the help of Pugh & Sanders, we effectively launched a kit programme. Six different kits, dedicated to a certain area of the overhaul. This means the staff do not have to spend valuable time picking the materials for their task. The kits are ready and waiting for them to start work."

Pugh & Sanders customer, Railway Industry
