

A photograph of a man in a black turtleneck and a high-visibility orange safety vest, smiling as he works in a warehouse. He is standing next to a large, multi-tiered shelving unit filled with clear plastic bins, each containing small parts. The bins are organized with blue labels and red dividers. The background shows the industrial structure of the warehouse with a high ceiling and skylights.

Getting to know us

At Pugh and Sanders, we come with over 30 years' experience in supplying the rail industry with fasteners, stocks and kits, particularly in the support of maintenance repair overhaul (MRO) facilities across a variety of usages in rolling stock, power train, and track refurbishment.

It's these jobs where safety, traceability and full certification is critical, which is why we place quality and reliability at the very top of our priorities in supplying each and every sector.

As a comprehensive supplier of all your required stock, we offer a full range of over 20,000 products.

Less stress. Less Paperwork. More time.

Ever wondered how much easier it'd be for everything to be delivered on time, on budget and all by the same company? Yes, so did we.

It's why we now specialise in stock replenishment across the board, employing systems and a highly-trained team of experts to provide effective delivery of everything you need.
