

A background image showing a close-up of a clear plastic bin filled with numerous brass-colored nuts and bolts. The bin is part of a larger hardware storage system with other bins visible in the background.

Our products

At Pugh & Sanders, we're driven to continually meet our customer's stock needs by providing a comprehensive range of quality, industry-approved products, along with friendly advice and unrivalled expertise. If you're looking for fasteners and fixings, we've got everything you need.

Although these sorts of products are usually small and of low value, having the correct item in the right place at the right time can significantly boost the productivity of your business. It's why we also offer a stock replenishment service (see additional insert), to help you move towards a more efficient way of working, with less time spent by staff downing tools to search for the products they need.

Everything you need, in one place

Here's a quick overview of what we offer, although with a range of more than 20,000 products, there really is just far too much to show you on one side of A4. However, you can pop along to our website for a more comprehensive view. Just visit: pughandsanders.co.uk/products
