

# Stock replenishment

Not only can efficient stock replenishment dramatically improve your cash flow, but it can free up your labour resource too.

At Pugh & Sanders, we provide and maintain stock replenishment systems for many companies both locally and nationally. And as no two companies are the same, we offer tailored stock replenishment packages to suit your particular needs.

Want to see how our stock replenishment system can transform your business? Contact Pugh & Sanders to find out more, or visit our website at [www.pughandsanders.co.uk](http://www.pughandsanders.co.uk)

# Stock replenishment

*With Pugh and Sanders' help, we've completely overhauled our stock flow. This has included reduced inventory and stock, which went directly onto new 'Stock Stations' across our site. Each stock station was overhauled so that it featured the correct item and, just as importantly, the desired product levels in an effective location for production. We've seen immediate cash flow improvements and greater efficiencies in our staff."*

Large Original Equipment Manufacturer, Manufacturing Coach Windows.
